PROFILE

Over seven years of experience in Software Development, I am a fast learner and a self-motivated developer. I work well with teammates and enjoy getting the work completed in time, and love handling new challenges.

I have over five years of experience working Remotely through platforms like Upwork/Hub staff, and I am used to having a daily team meeting and discussing daily progress. Also, I am available for Travel when Needed.

EXPERIENCE

Sr. Mobile Engineer

Bizimply | Dublin | 2021- Present

As a Workforce, HR, and Operations Management system, I was involved in serving 70,000 employees in huge companies like Vodafone, KFC, and lots more via precise and bug-free mobile applications for all of these happy customers.

I worked with:
- Upgrading Framework to the latest versions and overcoming breaking changes.
- Optimizing Performance using various techniques and technologies.
- Fixing bugs in a remarkable time and implementing any requested features
- Using CI/CD and clean git-flow for the best app development experience.

Founder & Cross-platform Mobile Developer

Dawaey | Shiben Al Kom | 2016- 2020

Serving ~100,000 Healthcare providers in two countries using bleeding-edge technologies, Offering high-quality medical references, Open source, and available for every platform saved ~500,000 hours to serve 5,000,000 patients till now.

I worked with:
- UI Design and Development.
- Software Development for (Web, PWA, Android, iOS, WP, Windows, and macOS)
- Technical Leading for a small team of (designer, backend, and full-stack developers)
- Digital Marketing, Firebase, and Google Analytics

Open Source Contributor

Github | Global | 2017- Present

With a tenth of open source projects and the need to enhance the developer experience I have contributed to (IONIC, Webpack, Node.js, MDN).

I worked with:
- Enhancing the documentation consumed by millions of developers on MDN.
- Fixing some bugs in the most famous bundling tool, Webpack
- Implementing new ES features inside the Node.js environment.
- Contributing to IONIC forums and trying to improve the docs.

FAVORITE BOOKS

- You Don't Know JavaScript
- Clean Code
- Pragmatic Programmer

EXPERIENCE (CONTINUED)

Crypto Frontend Developer

ExKnox | Tennessee | 2017

Remote Lead developing UI/UX for Blockchain, CryptoCurrency, and Decentralized Apps.

At Exknox. It was a fun experience to help a little Startup in the USA in crypto-exchange and cryptocurrencies to evolve.

I was responsible for:

- Angular and little API development.
- The client-side works, from HTML to CSS to JavaScript.

Cross-platform Mobile Developer

Parent.eu | Denmark | 2017

Remote cross-platform mobile application developer, I was responsible for developing the application that takes care of children in preschools and nurseries. Developing high-quality cross-platform apps, optimizing performance, fixing bugs, and implementing cool features. I used JavaScript, TypeScript, Ionic, Angular, and some other remarkable bleeding-edge technologies to build the app. It was huge with over 50 screens to manage the system with a multi-user dashboard, check-in system, paper-less routines, child friends, social newsfeed, child progress, graphs, and other advanced programming stuff.
